NOTE—We would invite special attention to the 1 and 2 year transplanted cuttings of Arbor Vitæs, Junipers and Retinisporas offered above; the cuttings were rooted in the greenhouse and have now become well established in the open ground; they have shapely tops and an abundance of roots.

EVERGREENS.

Rooted Cuttings. Ready May 1st.

These are strong cuttings, *thoroughly rooted*, of some Evergreens always scarce. We have sent them out for several years with great success. Of those we planted ourselves in the open ground, more than *95 per cent. grew.* We pack them in small compass in such manner as to insure safe carriage in perfect condition.
